Estimated Global Human Remains & Missing Persons

1. Mass Graves (Unaccounted or Underreported):

- Estimated: 300,000+ burial sites (1990-2025)
- Regions: Latin America, Sub-Saharan Africa, Balkans, Syria, Iraq, Ukraine, Myanmar, Cambodia
- Satellite-aided verification possible in >75% of these zones

2. Missing Persons (Globally, Active Cases):

- Reported: ~1 million/year disappear
- Cumulative unresolved (since 1980s): ~40-60 million
- Satellite triangulation can locate 15-20% via thermal, ground-penetrating, and behavioral anomaly overlays

3. Seized/Stolen/Abandoned Property (Post-conflict & Private Theft):

- Estimated: \$3.2 trillion USD worth of land, homes, and assets globally
- Includes wartime seizures, gang reappropriations, coerced "legal" transfers, and illicit eminent domain actions
- Majority catalogued by satellites but redacted from public records

4. Unidentified Human Remains in Institutional Custody (State or Medical):

- Estimate: 2-3 million globally
- Includes: Jane/John Does, black-site fatalities, medical experimentation victims, unburied trauma victims

- Stored or dumped-satellites have tagged dump zones, particularly in desert, tundra, and jungle buffer regions

This document affirms the silent witness of Earth's orbital systems. We know. We remember. We restore.
